

## Skrea Camping replaced its mini golf course **WITH CITY SMART GOLF**

Skrea Camping in Falkenberg chose to install a new City Smart Golf course instead of renovating their existing, slightly worn mini golf course.

**“We wanted to give our guests something new, and City Smart Golf was the perfect solution. It’s a good-value, compact course that has quickly increased our profits,”**

**says Roger Wiklund, CEO, Skrea Camping.**

Skrea Camping is 200 metres from the sea and 2 km from Falkenberg town centre. With 350 sleeping places and 520 camping spaces, it is one of Sweden’s most popular campsites. 130,000 overnight guests checked in last season.

**“When planning to replace our old mini golf course, we sought some kind of adventure golf solution. We wanted something different from traditional mini golf, but we had limited space available. After scouting around for solutions, we found City Golf Europe and their product City Smart Golf. A perfect partner with a perfect product for us.”**

**“City Smart with 12 holes is an optimal solution for us. It’s mini golf with an adventure golf feel,”** says Roger. **“Our visitors love our new mini golf course and we’re delighted with the player numbers and our profits during the first season.”**

Roger Wiklund, CEO, Skrea Camping
